NATURAL LEVEL: 4,  
75% gray

### COVERSMART FORMULA

Retouch application to gray new growth.

	+		+	
1 ½ oz. (45 ml) Color XG® CoverSmart 55NG (55/03)		½ oz. (15 ml) Color XG® CoverSmart 77C (77/34)		2 oz. (60 ml) 20 volume Paul Mitchell® Cream Developer

### REFRESH FORMULA

Color Match/Refresh application to mid-lengths and ends.

	+		+	
2 oz. (60 ml) Crema XG® 7NB (7/07)		½ oz. (15 ml) Crema XG® Clear		2 ½ oz. (75 ml) 10 volume Paul Mitchell® Cream Developer

### STEP-BY-STEP

1. Apply Formula 1 to the regrowth. Take fine, ¼-inch sections. Set a timer for 35 minutes.
2. With about 20 minutes remaining, take ½-inch sections and apply Formula 2 to the mid-lengths and ends. Process for the remaining time. (Consider the porosity of mid-lengths and ends and adjust timing accordingly, or mist hair with Awapuhi Moisture Mist® before application.)
3. Rinse the retouch color first before rinsing the mid-lengths and ends. Then, shampoo with Paul Mitchell® Color Protect® Post Color Shampoo and condition.
