(/88)
Pea Size

FORMULA 3

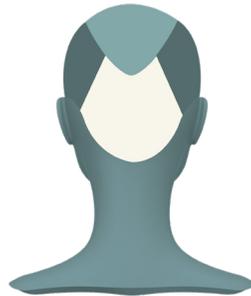

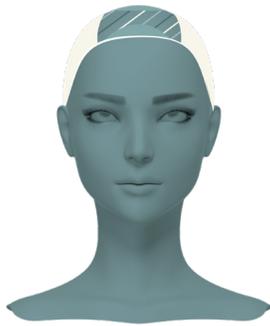

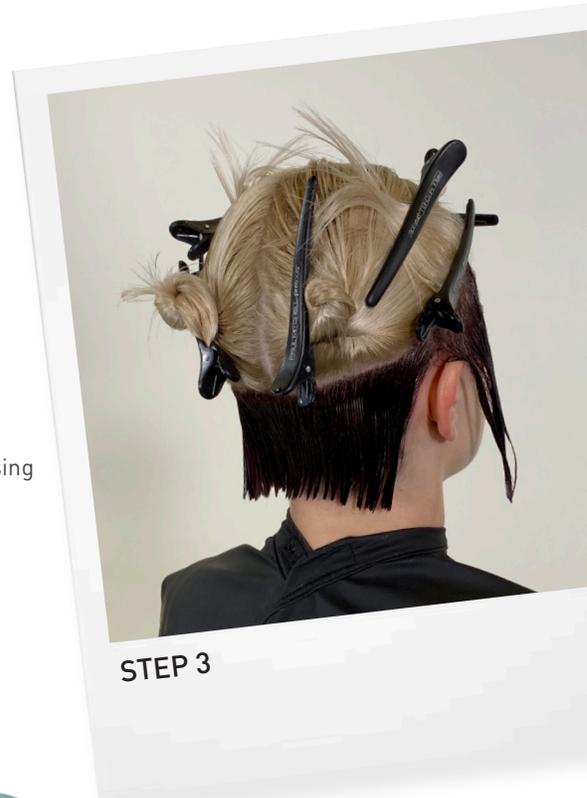

The Demi
8PA (8/81)
1 oz. (30 ml/g)

The Demi
3A (3/1)
0.5 oz. (15 ml/g)

COLOR

1. Split hair in half and create a circle from the fringe to the bottom of the occipital bone.
2. Create a slight diagonal section from the corner of the eyes and clip off.
3. Apply Formula 3 in the nape and hairline.
4. Move to isolated side panels and apply Formula 2.
5. Move to the fringe and take "C" sections using the sequence of Formula 1, 3 and 2.
6. Move to the top panel and apply Formula 1.

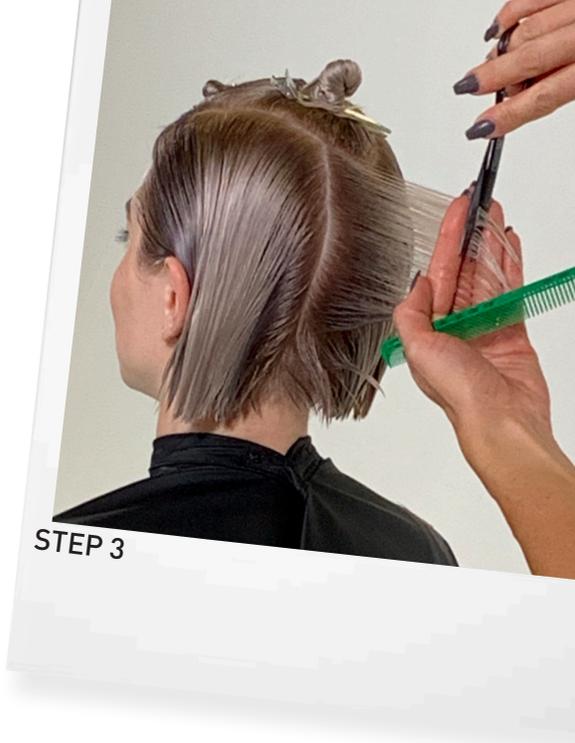

CUT

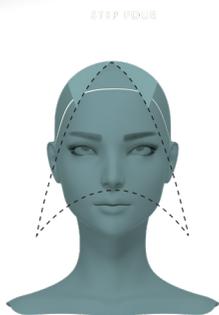

1. Section the fringe, then section the disconnection.
2. Begin at the center back. The cutting guide should come from the length at the occipital bone.
3. Take vertical sections, over direct to the previous cut section. At the corner of the hairline use a stationary guide.
4. Release the fringe section, elevate, and cut at desired length.
5. Comb everything back, up and around the ear and cut to create a clean outline.
6. Release the disconnection section. Comb and refine as necessary.

STYLE

1. On damp hair, apply one pump of Super Skinny® Serum into your hand and apply on the mid-lengths to ends. Use any remaining product and work up.
2. Working with the natural part, blow-dry in a flat wrap method with Paul Mitchell® Express Ion Turbolight®+ and 413 Sculpting Brush.
3. Allow the ends to dry with less control using the 413 Sculpting Brush to help give a more lived-in look.
4. Mist sections of hair with Paul Mitchell® Dry Wash®. Style as desired.
